EDUCATION

2023 – Present

SLIIT

- BSc (Hons) in Information Technology Specialising in IT

INTERPERSONAL SKILLS

- Strong Communication
- Problem Solving
- Team & Collaboration Analytical
- Thinking organized & efficient
- Time management
- Adaptability
- Attention to details
- Professionalism

CERTIFICATIONS

- MongoDB Data Modeling Path MongoDB Issued: April 2026
- Indexing Design Fundamentals MongoDB | Completed: Dec 2025
- MongoDB Basics for Students MongoDB | Completed: Dec 2025
- Python for Beginners – CODL University of Moratuwa | Issued: Dec 2025
- AI/ML Engineer – Stage 1 – SLIIT Completed: Dec 2025

LANGUAGES

- English
- Sinhala
- Tamil

PROFESSIONAL SUMMARY

I am a third-year Information Technology undergraduate at SLIIT with experience in full-stack and Android application development. I have worked with Spring Boot, the MERN stack, Java, Kotlin, JavaScript, REST APIs, and databases to build user-friendly and scalable applications. I enjoy learning new technologies, solving problems, and working in collaborative Agile teams. I also have a strong interest in telecommunications and digital platforms. I am looking for a Software Engineering Internship where I can further develop my technical skills and contribute to real-world projects.

TECHNICAL ABILITIES

- Frontend: HTML, CSS, JavaScript, Tailwind CSS, XML, React (MERN)
- Backend: PHP, Java, C++, Node.js, Express.js, Spring Boot
- Databases & Cloud Services: MySQL, MongoDB, Firebase
- Mobile Development: Android Studio, Kotlin, Shared Preferences
- Testing & API Tools: Playwright, Postman
- DevOps & Tools: Git, GitHub, Docker, Figma
- Concepts & Methodology: OOP, MVC, Data Structures & Algorithms, REST APIs, Agile Methodology.

FULL - STACK PROJECT EXPERIENCE

Academic Projects | 2024 – Present

- Smart Campus Hub** – Contributed as a **Full-Stack Developer** by designing and implementing the **Room Booking Management** module, including booking requests, approval workflows, and database integration. Implemented secure authentication and authorization using Spring Boot, React, MySQL, JWT, and Google OAuth2 for robust, scalable, and user-friendly access control. **Technologies:** React, Spring Boot, MySQL, Docker, Postman.

GitHub: <https://github.com/Darshik-an/it3030-paf-2026-smart-campus-group-WE-117-1.2.git>

- StuZic** – Contributed as a **Full-Stack Developer** by developing the **Mood & Music Recommendation** feature with mood tracking, personalized recommendations, and backend API integration. Worked in an Agile team environment, contributing to module development, testing, and regular progress updates. **Technologies:** React, Node.js, MongoDB, Firebase, JWT, Tailwind CSS.

GitHub: <https://github.com/darsika4478/ITPM-STUZIC-web-app.git>

- Online Clothing Store** – Contributed as a **Full-Stack Developer** by implementing the **Shopping Cart Management** module, including add/remove items, quantity updates, and order total calculations. **Technologies:** MongoDB, Express.js, React, Node.js (MERN Stack).

GitHub: <https://github.com/darsika4478/web-project-2.git>

- Mobile App Development** – Independently designed and developed Android applications, Developed Android apps with onboarding, validation, notifications, and habit tracking, implementing user interfaces, local data storage, navigation, and application logic. Designed Figma prototypes and converted them into functional UI screens. **Technologies:** Kotlin, XML, SQLite, SharedPreferences.
